

Success For All.

The Tulare Kings College + Career Collaborative is transitioning from a grant funded consortium to a partnership collaborative. Our goal is to increase the number of college and career ready graduates while in turn, collectively impacting our region by strengthening leadership, developing robust partnerships, and building systems that help our youth move seamlessly and successfully from high school to college and into the workforce.

We believe that our investment in building sustainable relationships and an innovative network will yield significant returns for our students in the Tulare Kings Region.

“TK [Collaborative] is making a significant difference in our collective ability to lead, grow and improve our region.”

— Thad Russell, Dean
College of the Sequoias

Core Beliefs

TK partners have a rich history of collaboration, responding to education, workforce and economic priorities of the region. Organizations are committed to aligning career pathways and industry partnerships to better prepare our region for economic success.

> A Solution for All

All students must be ready to succeed when they transition to post-secondary education, career training and the workforce.

> Talent Pipeline

Linked Learning and high quality career pathways are K-12 and post-secondary strategies to further develop the talent pipeline for the region.

> A Shared Vision

Tulare Kings partners are better together and thrive by committing to regional strategies and shared vision.

Scaling Regionally

Our regional partnership has endorsed this shared set of core beliefs which enhances our growth and success, inspiring more high quality pathways and development of college and career readiness strategies along the Pre-K to Post-secondary continuum.

“The TK Collaborative is a region-wide structure to emulate across the state and the nation. Together we serve students better!”

— Yolanda Valdez, Superintendent,
Cutler-Orosi Joint Unified
School District

“When the business community works with education we can help grow students that want to stay in the area and make a difference.”

— Colby Wells,
Southern California Gas Company

Regional Hub of Excellence

Our Linked Learning work has earned us the designation of a regional hub of excellence, where all partners are active and united – based on a shared interest in, and need for, young people to succeed.

We are honored to have been chosen to be a member of the ARCHES Alliance, a partnership of intersegmental regional collaboratives that are committed to closing opportunity and resource barriers for students in California.
